

## Statistic Sources

### **General Link**

IDVA's office frequently receives phone calls asking for veteran statistics, demographics, and other data. The VA's webpage site, the National Center for Veterans Analysis and Statistics, supplies an amazing and impressive amount of current data such as veterans' population, expenditures, maps, reports, etc. You can access their site here: <http://www.va.gov/vetdata>.

### **GDX Report**

On May 22, 2012, the Department of Veterans Affairs (VA) released the Geographic Distribution of VA Expenditures (GDX) Report 9 ([http://www.va.gov/VETDATA/docs/GDX/GDX\\_FY11.xls](http://www.va.gov/VETDATA/docs/GDX/GDX_FY11.xls)). This report details VA expenditures at the state, county, and Congressional District level. It includes categories for Compensation and Pension, Construction, Insurance, and Medical Care. Veteran population estimates and the number of unique patients who used VA health care services are also available here: <http://www.va.gov/vetdata/Expenditures.asp>

### **Additional Links**

For additional statistical sources, go here (i.e., U.S. Census Bureau, Bureau of Labor Statistics, Data.gov, U.S. Spending.Gov) and follow the links:
